

Sina Sayahi

Toronto, ON | sina.sayahi@torontomu.ca | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

INTERNSHIP AVAILABILITY

Seeking a Software Analyst Co-op (Fall 2026) in software development, data science, or AI. Available 4 or 8 months. Preferred location: Toronto/GTA, hybrid.

SUMMARY OF QUALIFICATIONS

- 3rd-year Computer Science student at Toronto Metropolitan University with strong foundations in OOP, software development processes, algorithms, and data structures.
- Proficient in Python, Java, C, C++, JavaScript, SQL, and Bash; experienced in designing, coding, debugging, and testing software solutions end-to-end.
- Passionate about AI, data science, and intelligent systems; actively developing knowledge of data analysis, algorithmic design, and machine learning concepts.
- Strong communicator in English, Arabic, and Persian; able to integrate quickly into teams and contribute meaningfully to collaborative development environments.

TECHNICAL SKILLS

Programming: Python, Java, C, C++, JavaScript, Bash, SQL **Frontend:** HTML, CSS, React

Tools: Git, GitHub, Firebase, Cloudflare Workers, VS Code, Figma, Microsoft Office Suite

Concepts: OOP, Algorithms, Data Structures, SDLC, Debugging, Testing, Version Control

Interests: Data Science, AI, Software Engineering, Cybersecurity, Web Development

PROJECTS

Sina Perfumes AI Studio | *React, Firebase, Claude AI, Cloudflare Workers* | [Live Demo](#) | [GitHub](#)

- Built and deployed a full-stack AI-powered web app integrating the Claude API to generate personalized fragrance profiles from user personality data, with real-time Firestore persistence.
- Architected a secure Cloudflare Workers proxy to handle cross-origin API requests and deployed the React frontend to GitHub Pages with an automated gh-pages build pipeline.

Astro Explorer | *Java, Java Swing, AWT Graphics, OOP* | [GitHub](#)

- Designed a real-time software system using OOP principles encapsulation, modularity, event-driven architecture to manage dynamic object states, physics, and user interaction.
- Developed and executed manual test and debugging cycles to resolve defects in collision detection, animation timing, and game state management across all scenarios.

Personal Portfolio Website | *HTML, CSS, JavaScript, React* | [Portfolio](#)

- Designed and deployed a fully responsive web app applying software development best practices: requirements analysis, iterative development, testing, and version control with Git and GitHub.
- Implemented dynamic UI features including light/dark mode and mobile-first layout, demonstrating attention to functional requirements and software quality standards.

ACADEMIC & PROJECT EXPERIENCE

Computer Science Coursework and Hands-On Learning

2023 – Present

Toronto Metropolitan University (Ryerson University)

Toronto, ON

- Built programming foundations in Python, Java, C, C++, and JavaScript through coursework and projects, consistently applying OOP, algorithms, and software engineering best practices.
- Practiced full SDLC processes design, coding, testing, debugging, and documentation building the ability to work independently and integrate into professional development teams.

EDUCATION

Toronto Metropolitan University (Ryerson University)

Expected Graduation: 2027

Bachelor of Science, Computer Science

Toronto, ON

- **Relevant Courses:** Intro to Programming (CPS109), OOP (CPS209), Unix & C (CPS393), Database Systems (CPS510), Web Systems Development (CPS530)
